R E M A R K S

Reconsideration of this application, as amended, is respectfully requested.

ALLOWABLE SUBJECT MATTER

The Examiner's indication of the allowability of the subject matter of claims 1-4 is respectfully acknowledged.

Claims 1-4 have been amended to correct some minor informalities, including all of the informalities pointed out by the Examiner, as well as to make some minor grammatical improvements and to correct some minor antecedent basis problems so as to put the claims in better form for issuance in a U.S. patent in better compliance with the requirements of 35 USC 112.

No new matter has been added, and no new issues with respect to patentability have been raised. And it is respectfully submitted that the amendments to the claims are not related to patentability, and do not narrow the scope of the claims either literally or under the doctrine of equivalents.

It is respectfully requested that the amendments to claims 1-4 be approved and entered, that the rejection under 35 USC 112 be withdrawn, and that claims 1-4 be allowed.
